

To whom it may concern: Please do not do ANYTHING to diminish the existing Indiana telephone privacy law protecting us from unwanted telemarketing calls. Since its inception, our home life has dramatically improved. Instead of constantly getting these calls, (about 10 per week) we now seldom get any at all. It is wonderful not to have to deal with these pushy and rude people and instead spend a more relaxing time at home. Again, please do NOT change our existing law just to create a weaker national standard. Thank you.
